

Euclid Verticoat Supreme

Verticoat Supreme is a one component, microsilica and latex modified, nonsag repair mortar. This cement based product is designed for trowel applied vertical and overhead repairs requiring high performance.

Primary Applications

- Resurfacing damaged or deteriorated concrete
- Vertical and overhead repairs
- Parking and bridge structures
- Parapet walls
- Marine structures
- Tunnels and dams

Packaging

VERTICOAT SUPREME is packaged in 50 lb moisture resistant bags. Yield is 0.48cu ft per bag when mixed with 2.75 qt of water.

Euclid Concrete Blaster

CONCRETE BLASTER is a unique* liquid which has the ability to remove hardened, built-up concrete from tools & equipment. It is designed to eliminate the need for sand blasting, bushhammering and jack-hammering hardened concrete from equipment. CONCRETE BLASTER has the distinct advantages of being biodegradable, non-hazardous and non-corrosive.

Primary Applications

- Ready mix trucks
- Trowels
- Screeds
- Concrete forms
- Concrete and mortar mixers
- Other concrete placing equipment
- Troweling machines
- Floats
- Precast forms
- Transport buggies

Packaging

CONCRETE BLASTER is packaged in 275 gal totes, 55 gal drums, 5 gal pails and 6/1 gal units per case.

Euco Clean & Strip

Euco Clean & Strip is a heavy duty cleaner and stripper that is highly effective at removing curing compounds, oils, grease, most concrete sealers, and other contaminants from concrete floors. Euco Clean & Strip is formulated from an easy to use, biodegradable citrus-based solvent that will not etch concrete like acid cleaners. Euco Clean & Strip replaces hazardous petroleum & chlorinated solvent based cleaning products.

Primary Applications

- Dissolves resin based concrete curing compounds and sealers
- Breaks down and removes grease, oil, and dirt stains and rubber tire marks

Packaging

55Gal Drums and 5Gal Pails

Euclid Ultra-Tex

Ultra-Tex is a thin, cementitious, decorative wear surface that utilizes liquid pigments and a template system to create the look of real stone, slate or tile. The appearance of ULTRA-TEX is only limited by the imagination.

Ultra-Tex is a overlay system designed to protect, beautify and enhance concrete balconies, decks, walkways and any interior or exterior concrete surface. This multi-component system for new or existing concrete and masonry surfaces is designed to protect while offering a variety of patterns and colors simulating hand –laid masonry effects.

Primary Applications

- Balconies
- Pool Decks
- Showrooms
- Foyers
- Walkways
- Driveways

Packaging

ULTRA-TEX components:

- UT91-1 Powder.....46 lb. bag
- UT91-1 Liquid.....5 gallon pail
- UT Retarder.....case w/ 6 one gallon jugs
- Tint Packs.....case of 12
- Templates.....case only

Eucobar

Eucobar is designed to be used as an evaporation retardant on concrete flatwork of all types. When sprayed over fresh concrete, Eucobar forms a thin, continuous film which prevents rapid moisture loss from the concrete surface. It is easy to use requiring only the addition of water before spray application. Eucobar is especially effective when concreting operations must be performed in direct sun, wind, high temperatures, or low relative humidity.

Primary Applications

- Floors
- Pavements
- Dry shake floors including all Surfex and Euco-Plate formulations
- Specialty iron toppings including Super Euco-Top
- Plain concrete toppings
- Parking decks and ramps

Packaging

EUCOBAR is packaged in 55 gal drums, 5 gal pails and 6/1 gal units per case.
