

MORRISON POWER SPRAYER

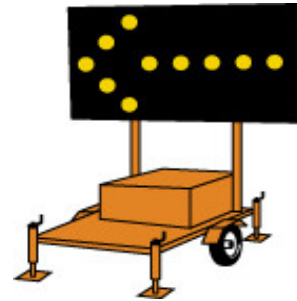

The Morrison power sprayer is ideal for spraying all types of curing compounds on bridge decks, highways, floor slabs, drainage channels, etc. after finish work is completed. Easily handles form oils, pigmented curing compounds, bond breakers, soaps and detergents, pest control liquids, most liquid-type materials. Sprays materials with a variable pressure between 40 and 1209 psi while constantly agitating materials.

Available with Honda or Briggs and Stratton engine
Includes 25 ft. hose and adjustable spray nozzle
Optional hand cart or tow cart designed to carry sprayer and barrel

AMIDA SOLAR-POWERED DETOUR-LITES

Amida solar powered "E" Series detour-lites are designed to provide years of efficient and reliable performance and are environmentally safe and easy to operate. Features that help make it the industry's most innovative and efficient arrowboard include choice of 15 or 25-lamp message modes; integrated, all-in-one controller, and pivoting panel system.

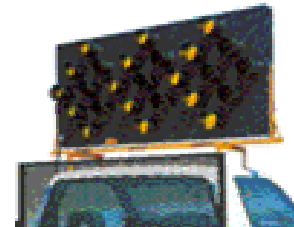

DIESEL POWERED DETOUR-LITES

Engineered to meet the specific needs of the construction industry, the Amida diesel powered detour-lite can take the punishment, regardless of job and climatic conditions. Primary features include double fused board that prevents complete blackout in case of electrical problems, all standard light patterns available for greater job flexibility, choice of 4.0 and 6.4 LP Lombardini diesel engines.

AMIDA VEHICLE-MOUNTED DETOUR-LITES

Amida vehicle-mounted detour-lites are engineered and built to meet all necessary safety and structural requirements. All sign functions can be operated from a compact dashboard-mounted controller for maximum convenience. Sign sizes range from 24" x 48" (61 cm x 122 cm) to 48" x 96" (122cm x 244 cm).

AL 4000

Amida Series 4000 Heavy Duty Light Tower

The AL 4000 has been engineered to meet the specific needs of the construction industry and is particularly popular for rental applications because of its safe, rugged design. It is a full-sized, 30' (9.2 m) extended height, floodlighting tower that is easy to move by hand. Tower is galvanized and 360° rotatable for easy aiming of floodlights from the ground. Plug-in wiring and convenient duplex outlet are other exceptional features.
