## Light Duty Restoration Cleaner

### *Description and use*

Sure Klean® Light Duty Restoration Cleaner safely removes light to moderate atmospheric and oxidation staining from dense masonry surfaces. Removes difficult calcium (concrete) stains, white scum and other staining from most window glass.

This highly efficient, gelled cleaner is a colorless blend of cleaning agents, detergents and inhibitors.

### *Advantages*

- Highly efficient restoration cleaner for most dense masonry surfaces.
- Reduced potential for damage to adjacent or surrounding surfaces.
- Very low odor.

## Heavy Duty Restoration Cleaner

### *Description and use*

Sure Klean® Heavy Duty Restoration Cleaner is a concentrated acidic cleaning compound for the removal of heavy atmospheric staining from unpolished masonry.

Used properly, Heavy Duty Restoration Cleaner dissolves heavy carbon and many other stains commonly found on masonry buildings in highly polluted areas. Dilute with water to produce a cost-effective, general-purpose restoration cleaner for brick, granite, sandstone, slate, terra cotta and many other masonry surfaces.

### *Advantages*

- Cost-effective concentrate reduces shipping, storage and container disposal costs.
- Proven effective for cleaning the dirtiest buildings.
- Safer than sandblasting. Will not damage masonry when properly used.

## Restoration Cleaner

### *Description and use*

Sure Klean® Restoration Cleaner is a concentrated compound formulated as a "carbon solubilizer". Used properly, it cleans brick, granite, sandstone, terra cotta, exposed aggregate and other masonry except limestone, marble or concrete. This product has been safely and effectively used to clean historic structures throughout the United States and Canada.

Application to masonry surfaces loosens and dissolves dirt, paint oxidation, carbon buildup and other atmospheric pollutants. A simple cold water rinse then removes these unsightly stains.

### *Advantages*

- Proven effective for cleaning dirty and heavily carboned buildings.
- Safer than sandblasting. Will not pit or damage the masonry when properly applied.
